Vision

Through mentorship, education, and community engagement, we endeavor to break the cycle of violence, reduce conflict, and cultivate a generation of resilient, empathetic, and socially responsible youth. We are committed to providing the tools, resources, and support necessary for young individuals to embrace conflict resolution as a means to promote justice, equality, and harmony.

This will curb the crime rate among youth in the most violent, impoverished, and marginalized communities worldwide.

Mission

The Youth Violence and Conflict Resolution initiative is dedicated to empowering and inspiring today's youth to become catalysts for positive change in their communities. Our mission is to address the critical issues of youth violence and conflict, fostering empathy, communication, and leadership skills that enable young individuals to navigate challenges peacefully.

Our program is founded on the principles of applying God's laws, statutes, and commandments. We strive to create safe spaces where young people can engage in open dialogue, share their experiences, and develop strategies for conflict resolution and violence prevention. We firmly believe that every young person has the potential to become an agent of peace, and it is our responsibility to nurture and guide them on this transformative journey.

Impact

The YVCRS brings solutions to perilous areas, and has received praise from Mayors, politicians, police officers, district attorneys, college professors, as well as local teachers and coaches.

Several seminars have been coordinated throughout the US and Caribbean, with numerous requests to return to host quarterly and annual sessions.

"Thank you so much. Our children will always remember you standing up for them."
